B TECH/MBA
(SEM-ODD) THEORY EXAMINATION 2019-20
CYBER SECURITY

Time: 3 Hours**Total Marks: 100****Note: 1. Attempt all Sections. If require any missing data; then choose suitably.**

SECTION A

1. Attempt *all* questions in brief. **2 x 10 = 20**
- What are the security threats? Discuss.
 - What do you understand by security structure and design?
 - Who are the major victims of cyber-crime?
 - What do you know about Security Risk Management?
 - What are firewalls?
 - Define IT asset and the security of IT Assets.
 - What do you mean by virus, worm and IP spoofing?
 - What is digital signature?
 - What is Cryptography?

SECTION B

2. Attempt any *three* of the following: **10 x 3 = 30**
- Explain Legal issues in Data mining Security.
 - What are the key technological components used for security implementation?
 - How can you say that intrusion detection system is the backbone of information system? Justify along with its categories.
 - Draw the diagrammatical approach to make difference between symmetric and asymmetric cryptography.
 - What is Electronic cash? How does cash based transaction system differ from credit card based transactions?

SECTION C

3. Attempt any *one* part of the following: **10 x 1 = 10**
- What are the five pillars of information assurance? Explain in details.
 - How do you perform a risk analysis? Explain the process of risk analysis in details?
4. Attempt any *one* part of the following: **10 x 1 = 10**
- What is Malicious software? Explain the types of malicious software in details.
 - Differentiate Backups, Archival Storage and Disposal of Data with suitable examples.
5. Attempt any *one* part of the following: **10 x 1 = 10**
- Write a short note on CCTV and its applications briefly.
 - What are the security threats in mobile computing? Explain in detail.
6. Attempt any *one* part of the following: **10 x 1 = 10**
- What is Denial of Services (DoS) attack? How does a Dos attack in network security?
 - Explain WWW policies and Email Security policies.
7. Attempt any *one* part of the following: **10 x 1 = 10**
- Explain Semiconductor Law and Patent Law.
 - Explain IT Act 2000 Provisions.
