(SEM. VIII) THEORY EXAMINATION 2025-26

SUPPLY CHAIN MANAGEMENT

TIME: 3 HRS

M.MARKS: 100

Note: 1. Attempt all Sections. If require any missing data; then choose suitably.**SECTION A****1. Attempt all questions in brief.****2x10 = 20**

QNo.	Question	CO	Level
(a)	Define Supply Chain Management and state its objectives.	1	K1
(b)	Identify the supply chain decision phases.	1	K1
(c)	Explain the concept of strategic fitness in SCM.	2	K2
(d)	Describe deterministic inventory models.	2	K2
(e)	Identify types of distribution network designs.	3	K1
(f)	Outline the Bullwhip Effect in supply chains.	4	K2
(g)	Differentiate between SCM and Logistics.	4	K2
(h)	Differentiate between 3PL and 4PL.	4	K2
(i)	Explain the role of RFID in SCM.	5	K2
(j)	Explain vendor rating in purchasing management.	5	K2

SECTION B**2. Attempt any three of the following:****10 x 3 = 30**

(a)	Explain the evolution of Supply Chain Management and its macro processes.	1	K2
(b)	Apply forecasting methods for planning supply and demand in a supply chain.	2	K3
(c)	Discuss the various inventory control techniques such as ABC, VED, SDE, FSN, etc.	3	K3
(d)	Examine logistics models and logistics costs in SCM.	4	K4
(e)	Examine the role of Information Technology: EDI, ERP, Internet, Intranet, GPS, Bar coding, and RFID in SCM.	5	K4

SECTION C**3. Attempt any one part of the following:****10 x 1 = 10**

(a)	A company's supply chain lacks coordination between suppliers and distributors. Analyze the operational issues and recommend improvements using SCM drivers.	1	K4
(b)	An e-commerce company wants to achieve strategic fit between customer responsiveness and operational efficiency. Evaluate the existing supply chain strategy and design an improved framework for competitive advantage.	1	K5-K6

P.T.O.

4. Attempt any *one* part of the following:**10 x 1 = 10**

(a)	A retail chain experiences overstocking and stockouts due to inaccurate demand forecasting. Analyze the demand planning issues and suggest forecasting improvements.	2	K4
(b)	A pharmaceutical company intends to implement probabilistic inventory models. Evaluate the suitability of different inventory approaches and design an inventory system.	2	K5-K6

5. Attempt any *one* part of the following:**10 x 1 = 10**

(a)	A FMCG company is facing increasing delivery delays and customer dissatisfaction. Analyze distribution network issues and recommend an improved design.	3	K4-K5
(b)	A multinational retailer faces network disruptions caused by geopolitical uncertainty. Develop a resilient network design strategy incorporating risk management concepts.	3	K6

6. Attempt any *one* part of the following:**10 x 1 = 10**

(a)	A logistics company is facing increased operational costs due to poor fleet utilization and inventory fluctuations. Analyze the causes of logistics inefficiencies and suggest corrective measures.	4	K4-K5
(b)	A retail organization wants to implement Cross Docking and Pull-based transportation systems. Evaluate their impact on logistics performance and design an implementation plan.	4	K5-K6

7. Attempt any *one* part of the following:**10 x 1 = 10**

(a)	A manufacturing company experiences supplier quality issues and procurement delays. Assess the sourcing process and recommend vendor management improvements.	5	K5
(b)	A multinational organization wants to digitally integrate its supply chain operations using ERP, RFID, and Intranet technologies. Develop a digital transformation plan for supply chain restructuring.	5	K6
