MCA-INT
(SEM IX) THEORY EXAMINATION 2024-25
SOFTWARE ENGINEERING

TIME: 3 HRS

M.MARKS: 70

Note: Attempt all Sections. In case of any missing data; choose suitably.

1. Attempt all questions in brief. SECTION A

2 x 07 = 14

Q no.	Question	CO	Level
a.	Describe the components of a Software	1	2
b.	Explain the categories through which we may select an appropriate life cycle model.	1	2
c.	Differentiate between Interview and Brainstorming techniques of Requirement Elicitation.	2	2
d.	Discuss Feasibility Study?	2	2
e.	List two disadvantages of Lines of Code.	3	1
f.	Discuss the scenario to perform regression testing.	4	2
g.	Discuss the ways to avoid risk.	5	2

SECTION B

2. Attempt any three of the following:

07 x 3 = 21

a.	Identify three reasons for the necessity of developing a prototype during software development.	1	1
b.	Draw a DFD for result preparation automation system of B.Tech. Courses of any university. Clearly describe the working of that system. Also mention all assumptions made by you.	2	3
c.	Compare function-oriented design and object-oriented design with suitable examples?	3	2
d.	What are the objectives of formal technical review? Give a comparative study of code inspection, reviews and walk-through.	4	3
e.	Categorize the use of case tools in software engineering with their advantages and disadvantages.	5	2

SECTION C

3. Attempt any one part of the following:

07 x 1 = 07

a.	Explain spiral model for software life cycle with a neat diagram and discuss various activities in each phase.	1	2
b.	State at least two reasons as to why classical waterfall model can be considered impractical and cannot be used in real projects.	1	2

4. Attempt any one part of the following:

07 x 1 = 07

a.	Examine the problems that arise in the formulation of requirements? Mention two techniques of requirement elicitation.	2	3
b.	Demonstrate the difference between ISO and CMM models for quality assurance.	2	3

5. Attempt any one part of the following:

07 x 1 = 07

a.	Explain the notion of coupling and cohesion in the context of structured design?	3	3
----	--	---	---

MCA-INT
(SEM IX) THEORY EXAMINATION 2024-25
SOFTWARE ENGINEERING

TIME: 3 HRS**M.MARKS: 70**

b.	Illustrate top-down and bottom-up design along with their advantages and disadvantages.	3	3
----	---	---	---

6. Attempt any *one* part of the following: 07 x 1 = 07

a.	How can project scheduling affect integration testing, Is unit testing possible in all circumstances? Provide examples to justify your answer?	4	3
b.	Illustrate integration testing and its various types.	4	3

7. Attempt any *one* part of the following: 07 x 1 = 07

a.	Illustrate the benefits of Software Configuration Management (SCM) and the activities for SCM performed during SDLC.	5	3
b.	With neat sketch, briefly discuss the process of software re-engineering. How to measure cost, effort, duration and size using COCOMO estimation technique? Explain it in detail.	5	3
