MBA
(SEM. IV) THEORY EXAMINATION 2025-26
HOSPITAL INFORMATION SYSTEM

TIME: 3 HRS**M.MARKS: 100**

Note: Attempt all Sections. In case of any missing data; choose suitably.

SECTION A

1. Attempt all questions in brief.

2 x 10 = 20

Q No.	Question	CO	Level
a.	Define Management Information System (MIS) and state one of its primary advantages.	1	K1
b.	List two important characteristics of an effective Hospital Management Information System (HMIS)	1	K1
c.	Briefly explain the functional relationship between a Local Area Network (LAN) and a Wide Area Network (WAN)	2	K2
d.	Name two common types of network topologies used in setting up a network architecture	2	K1
e.	State two advantages of using a Database Management System (DBMS) over a manual database.	2	K1
f.	Briefly explain what an Entity Relationship Diagram (ERD) is in the context of DBMS models	3	K2
g.	Define Enterprise Resource Planning (ERP).	4	K1
h.	List two key benefits of implementing ERP in an organization.	4	K1
i.	What is Telemedicine? Briefly state one of its uses in modern healthcare	5	K1
j.	Explain the purpose of using Radio Frequency Identification (RFID) technology in a healthcare setting.	5	K2

SECTION B

2. Attempt any three of the following:

10 x 3 = 30

Q No.	Question	CO	Level
a.	What is a Computer Based Information System (CBIS)? What common problems do hospitals face when using an HMIS?	1	K2
b.	What basic hardware (like memory and input/output devices) does a hospital need? What are the guidelines for buying hospital software?	2	K2
c.	What are the different types of systems used in an organization? Explain the difference between ESS, DSS, and KWS.	3	K3
d.	Who are the top companies that sell ERP systems today? Explain the technology used in Enterprise Resource Planning (ERP).	4	K2
e.	What are the pros and cons of using Information Technology (IT) in healthcare? Why are Electronic Medical Records (EMR) important?	5	K2

SECTION C

3. Attempt any one part of the following:

10 x 1 = 10

Q No.	Question	CO	Level
a.	What are the basic requirements of a Management Information System (MIS)? Explain the role of MIS in a hospital.	1	K2
b.	Describe the different information needs within a hospital. What are the major benefits of using a Hospital Management Information	1	K2

Paper ID : 261231

Printed Page: 2 of 2

Subject Code:KMHC403

HOSPITAL INFORMATION SYSTEM

TIME: 3 HRS**M.MARKS: 100**

	System (HMIS)?		
--	----------------	--	--

4. Attempt any one part of the following:**10 x 1 = 10**

Q No.	Question	CO	Level
a.	How are computers classified based on the type of data, their purpose, and their data processing capability?	2	K2
b.	What are the important factors for comparing different LANs? Explain Global Area Networking and Network Standards.	2	K2

5. Attempt any one part of the following:**10 x 1 = 10**

Q No.	Question	CO	Level
a.	Describe the key system applications used in an organization. How do these different types of systems relate to one another.	3	K2
b.	Explain the overall structure of a Database Management System (DBMS). What is the role of a DBMS programming language?	3	K2

6. Attempt any one part of the following:**10 x 1 = 10**

Q No.	Question	CO	Level
a.	Provide an introduction to Enterprise Resource Planning (ERP). Discuss the major benefits of using ERP in a healthcare organization	4	K2
b.	What are the core concepts of Enterprise Resource Planning (ERP)? Explain the step-by-step methodology for successfully implementing it.	4	K3

7. Attempt any one part of the following:**10 x 1 = 10**

Q No.	Question	CO	Level
a.	How is information used in modern healthcare? Explain the concept and importance of managing Medical Information.	5	K2
b.	What is Radio Frequency Identification (RFID)? Explain in detail how this technology is used to manage and track resources in a hospital.	5	K3
