PAPER ID-310475

Subject Code: KCE076

Roll No: | | | | | | | | | | | | | |

BTECH
(SEM VII) THEORY EXAMINATION 2023-24
URBAN TRANSPORTATION PLANNING

TIME: 3 HRS **M.MARKS: 100**

Note: 1. Attempt all Sections. If require any missing data; then choose suitably.

SECTION A

1. Attempt *all* questions in brief. **2 x 10 = 20**

Qno.	Question
a.	Define the term Traffic Flow, Headway.
b.	Write the objective of transportation planning?
c.	Define the term Rapid transport system?
d.	Write a short note on LRT.
e.	What is traffic design?
f.	Write a short note on IPT.
g.	What are the needs of traffic forecasting?
h.	Write about the various characteristic of traffic.
i.	What are the parameters which affect the traffic flow?
j.	What are the needs of traffic forecasting?

SECTION B

2. Attempt any *three* of the following: **10x3=30**

a.	What do you understand by trip distribution method? Discuss any two-trip distribution method in detail.
b.	What does the different role of transportation describe in detail?
c.	What are the stages and zoning of urban transport planning process, describe in detail?
d.	Write about the various characteristic of traffic. Also write some factor which affect the vehicle performance.
e.	Discuss in detail about Long Term and Short-Term planning related to road transport.

SECTION C

3. Attempt any *one* part of the following: **10x1=10**

a.	Describes the various types of IPT mode. Also write the objective of transportation planning.
b.	What is queuing theory and what are their function? Explain in detail.

4. Attempt any *one* part of the following: **10x1=10**

a.	Explain the mode of transportation in detail.
b.	Write the Goals and objective of transportation planning.

5. Attempt any *one* part of the following: **10x10**

a.	Explain the role of vehicle in Environmental Pollution and suggest suitable meaning and control pollution in detail.
b.	Give the name of all traffic flow theories. Discuss any one theory along with its comparative merits and demerits.

6. Attempt any *one* part of the following: **10x1=10**

a.	What do the different modes of mass transport explain in detail?
b.	What do you understand by the various trip distribution method? Discuss any two-trip distribution method in detail.

7. Attempt any *one* part of the following: **10x1=10**

a.	What is model split. Also discuss the various factors which affect the model split in detail.
b.	What is the duty of a transportation engineers? How the traffic system in India does differ from European countries?
