PAPER ID-310608

Subject Code: BMBOM02

Roll No: | | | | | | | | | | | | | |

MBA

(SEM III) THEORY EXAMINATION 2025-26

BUSINESS PROCESS REENGINEERING

TIME: 3 HRS **M.MARKS: 70**

Note: Attempt all Sections. In case of any missing data; choose suitably.

SECTION A

1. Attempt *all* questions in brief. **02 x 7 = 14**

Q no.	Question	CO	Level
a.	What is the primary role of BPR in relation to organizational success?	1	K2
b.	Name a few technologies that plays a crucial role in BPR implementation		
c.	What are major human resource considerations that must be addressed during BPR implementation?		
d.	Which tool is used for documenting and analyzing business processes?		
e.	What is the role of IT in BPR?		
f.	What are the main differences between process improvement and process innovation?		
g.	What system is commonly used to manage and automate business processes in BPR?		

SECTION B

2. Attempt any *three* of the following: **07 x 3 = 21**

a.	Explain the fundamental principles of BPR and discuss how it differs from traditional process management.	1	K2
b.	Compare and contrast at least two process modeling tools/techniques and explain how they help identify bottlenecks and reengineering opportunities.		
c.	Explain the strategic role of IT in enabling successful BPR implementation.		
d.	Outline the key strategies to overcome resistance to change and mitigate risks during BPR implementation, with examples.		
e.	Analyze the impact of digital transformation and Industry 4.0 on contemporary BPR practices.		

SECTION C

3. Attempt any *one* part of the following: **07 x 1 = 07**

a.	Discuss the key objectives and significance of BPR in enhancing organizational competitiveness in today's business environment.	1	K2
b.	Identify and elaborate on the critical success factors for BPR implementation. Also, address common myths associated with BPR and explain how they can hinder its effectiveness in operations management.		

4. Attempt any *one* part of the following: **07 x 1 = 07**

a.	Describe at least two commonly used process modeling techniques and illustrate how each helps in identifying inefficiencies and bottlenecks.	1	K2
b.	Discuss how process benchmarking can be used to evaluate and improve process performance in an organization.

BUSINESS PROCESS REENGINEERING

TIME: 3 HRS **M.MARKS: 70**

5. Attempt any *one* part of the following: **07 x 1 = 07**

a.	Analyze how Enterprise Resource Planning (ERP) and Artificial Intelligence (AI) can enable and accelerate process re-engineering initiatives.	1	K2
b.	Describe how tools such as Business Process Management Systems (BPMS) and Workflow Automation Tools support the implementation, monitoring, and sustainability of re-engineered processes.		

6. Attempt any *one* part of the following: **07 x 1 = 07**

a.	Explain the principles of organizational change management relevant to BPR.	1	K2
b.	Using real-world examples from global or Indian corporate cases, explain what can be learned from BPR failures in terms of change management and stakeholder engagement.		

7. Attempt any *one* part of the following: **07 x 1 = 07**

a.	Evaluate how smart manufacturing and data-driven automation are transforming BPR in the manufacturing and service sectors.	1	K2
b.	Describe how organizations can use data insights to design environmentally responsible and efficient business processes.
