Case Study:

The concept of Quality Circles which originated in the United States and actually proliferated in Japan is of recent origin in India. In India, by now several companies have implemented QC programs. Companies where the QC programs have been working successfully include BHEL, Kirloskar Oil Engines, Mahindra & Mahindra, Bajaj Auto etc. Though QC concept has many positive points, it has failed miserably in many organizations due to certain problems and pitfalls.

M/s Global Manufacturers Ltd was one such company. Following are some important problems of M/s Global Manufacturers Ltd efforts and their successive failure in the implementation of Quality Circles.

Both employees and managers had a negative attitude toward QC and often resisted its implementation. Managers felt that QC dilutes their authority and importance in the organization. Also, the employees were characterized by their low level of education and also lack of leadership qualities. Lack of management commitment toward QC was demonstrated by not permitting the members to hold QC meetings during the working hours. The members of the QC felt disheartened when their suggestions were not accepted and implemented by the management without giving convincing reasons for not doing so.

Answer any TWO of the following questions:

(a) What major problems can you identify that have posed as a major hindrance in the successful implementation of Quality Circles at M/s Global Manufacturers Ltd?
(b) How can the negative attitude of employees towards QC be dispelled?
(c) What steps / measures do you propose so that the employees of M/s Global Manufacturers Ltd embrace QC and as a result, further enthuse, the members of QC to improve quality of their goods and services
