

B.TECH
(SEM VI) THEORY EXAMINATION 2022-23
SUSTAINABILITY OF ENVIRONMENT

Time: 3 Hours**Total Marks: 100****Note:** Attempt all Sections. If require any missing data; then choose suitably.**SECTION A****1. Attempt all questions in brief.****2 x 10 = 20**

- (a) What is Eco-system?
- (b) Define food chain. Write it's types.
- (c) What is Air Pollution?
- (d) Define CETP.
- (e) What are the different sources of solid waste?
- (f) What are the objectives of waste water treatment?
- (g) Enlist various types of environmental pollutions.
- (h) Define adsorption and absorption.
- (i) Define the concept of Smart City.
- (j) Differentiate between the concept of Recycle and Reuse.

SECTION B**2. Attempt any three of the following:****10 x 3 = 30**

- (a) Describe the relation between human activities and the environment. Explain the importance of creating a better environment.
- (b) What is sustainable development? Discuss parameters of sustainable development and explain the major issues of sustainable growth in India.
- (c) Discuss the concept of 'common property resources', Explain its psychological and social impact on human behaviour.
- (d) What are the common measures for industrial waste pretreatment?
- (e) Write a detail note on "Clean Development Mechanism".

SECTION C**3. Attempt any one part of the following:****10 x 1 = 10**

- (a) Describe your recent visit to any industrial site and explain the impact of pollutants emitted on environment and discuss the various measures to control the pollution levels.
- (b) Describe Food web in aquatic system with the help of schematic diagram.

4. Attempt any one part of the following:**10 x 1 = 10**

- (a) Explain briefly environmental protection laws and acts.
- (b) What are the deleterious effects produced on the human body when exposed to high level of noise?

5. **Attempt any *one* part of the following:** **10 x 1 = 10**
(a) State the parameters of water which are to be tested for determining its quality and explain any four of them.
(b) Explain settling chamber and electrostatic precipitators with neat sketches.
6. **Attempt any *one* part of the following:** **10 x 1 = 10**
(a) Discuss value extraction from the wastes.
(b) Enlist & Explain the factors affecting municipal solid waste generation.
7. **Attempt any *one* part of the following:** **10 x 1 = 10**
(a) Explain hazardous wastes ,its characterization, and management practices .
(b) Discuss the impact of energy sources on environment.
