

Paper ID : 261319

Printed Page: 1

Subject Code:BMBAI402

Roll No: _____

MBA-INT

(SEM. IV) THEORY EXAMINATION 2025-26
PRODUCTION & OPERATIONS MANAGEMENT

TIME: 3 HRS

M.MARKS: 70

Note: Attempt all Sections. In case of any missing data; choose suitably.

SECTION A

1. Attempt all questions in brief.

02 x 7 = 14

Q no.	Question	CO	Level
a.	Define production as a system with an example from manufacturing industry.	1	K1
b.	State any two objectives of Production Planning and Control (PPC).	1	K1
c.	What is batch production?	2	K1
d.	Define work study.	2	K1
e.	What is plant layout?	3	K1
f.	Define inventory management.	4	K1
g.	What is preventive maintenance?	5	K1

SECTION B

2. Attempt any three of the following:

07 x 3 = 21

Q no.	Question	CO	Level
a.	Explain the nature and scope of production and operations management with reference to firms like Toyota.	1	K2
b.	Compare jobbing, batch, and mass production methods with suitable industrial examples.	2	K2
c.	Discuss the importance of work study and its role in improving productivity in organizations.	2	K2
d.	Explain the factors affecting plant location decisions for a new manufacturing unit.	3	K2
e.	Describe the role of purchasing and supplier selection in effective materials management.	4	K2

SECTION C

3. Attempt any one part of the following:

07 x 1 = 07

Q no.	Question	CO	Level
a.	A company plans to establish a new plant. Analyze the key factors influencing plant location and justify your decision.	3	K4
b.	Compare process layout and product layout with suitable examples and evaluate their suitability.	3	K4

MBA-INT

(SEM. IV) THEORY EXAMINATION 2025-26

PRODUCTION & OPERATIONS MANAGEMENT

TIME: 3 HRS

M.MARKS: 70

4. Attempt any one part of the following:

07 x 1 = 07

Q no.	Question	CO	Level
a.	Conduct a method study for improving efficiency in a production process (assume suitable data).	2	K3
b.	Analyze how time and motion study contributes to productivity improvement in organizations.	2	K4

5. Attempt any one part of the following:

07 x 1 = 07

Q no.	Question	CO	Level
a.	Explain inventory control techniques and their application in a manufacturing firm.	4	K3
b.	Evaluate the role of value analysis and value engineering in cost reduction and efficiency improvement.	4	K4

6. Attempt any one part of the following:

07 x 1 = 07

Q no.	Question	CO	Level
a.	Evaluate different types of maintenance (breakdown, preventive, predictive) in a production environment.	5	K4
b.	A manufacturing firm faces frequent machine failures. Suggest an appropriate maintenance strategy and justify your answer.	5	K5

7. Attempt any one part of the following:

07 x 1 = 07

Q no.	Question	CO	Level
a.	Analyze the role of waste management practices such as salvage, recovery, and scrap disposal in improving sustainability.	5	K4
b.	Evaluate how production managers can use decision-making techniques to solve real-world operational problems.	6	K4
