**MBA-INT**  
**(SEM VIII) THEORY EXAMINATION 2024-25**  
**SYSTEM ANALYSIS AND DESIGN**

**TIME: 3 HRS**

**M.MARKS: 100**

**Note:** Attempt all Sections. In case of any missing data; choose suitably.

**SECTION A**

**1. Attempt all questions in brief.**

**2 x 10 = 20**

| Q no. | Question                                            |
|-------|-----------------------------------------------------|
| a.    | What is a System?                                   |
| b.    | Define Open system.                                 |
| c.    | What is Prototyping?                                |
| d.    | What is the role of System Analyst?                 |
| e.    | Define the Onsite Observations.                     |
| f.    | What is Questionnaires?                             |
| g.    | Define the Data flow diagram.                       |
| h.    | Define the Structured English.                      |
| i.    | What is the importance of feasibility study report? |
| j.    | Define Feasibility study.                           |

**SECTION B**

**2. Attempt any three of the following:**

**10 x 3 = 30**

|    |                                                                              |
|----|------------------------------------------------------------------------------|
| a. | Explain the System Concept and its characteristics.                          |
| b. | Write and explain the different phases of SDLC by taking a suitable example. |
| c. | Explain the steps in the initial investigation?                              |
| d. | Explain the basic rules are relevant to constructing a DFD?                  |
| e. | What is Feasibility? Describe the different types of Feasibility.            |

**SECTION C**

**3. Attempt any one part of the following:**

**10 x 1 = 10**

|    |                                                                                       |
|----|---------------------------------------------------------------------------------------|
| a. | What are the elements of a System? Can you a viable system without feedback? Explain. |
| b. | Discuss the concepts of MIS & DSS. How are they related? How do they differ?          |

**4. Attempt any one part of the following:**

**10 x 1 = 10**

|    |                                                                                 |
|----|---------------------------------------------------------------------------------|
| a. | Explain the role of a Systems Analyst?                                          |
| b. | Elaborate on the Technical and Interpersonal skill required of system analysts. |

**5. Attempt any one part of the following:**

**10 x 1 = 10**

|    |                                                                                                 |
|----|-------------------------------------------------------------------------------------------------|
| a. | What is initial investigation? Explain the strategies for determining information requirements? |
| b. | Explain the Procedure used to construct Questionnaires.                                         |

**6. Attempt any one part of the following:**

**10 x 1 = 10**

|    |                                                           |
|----|-----------------------------------------------------------|
| a. | Describe a Decision Tree and how to draw a Decision Tree? |
| b. | Explain guidelines for conducting a successful interview. |

**7. Attempt any one part of the following:**

**10 x 1 = 10**

|    |                                                                  |
|----|------------------------------------------------------------------|
| a. | Discuss the major phases in Selection for Hardware and Software? |
| b. | Elaborate on the Steps in Feasibility analysis?                  |
